Mr. C. A. Hadland

Rochester, Minnesota

Dear Mr. Hadland:

I very much appreciate both of your recent letters and your kind remarks concerning my brother.

It was very considerate of you to write and you can be sure that your suggestions as well as those of many other thoughtful persons like yourself are being given careful attention and consideration.

With best wishes.

Sincerely,

SIGNED

Allen W. Dallas

Hon. Allen Dulles  
Washington, D.C.  
Dear Mr. Dulles:

The Freemont Christian Clinic uses the Hoxsey system and is curing cancer cases where surgery and burning just tortures the unfortunate patients.

You must be aware that the A.M.A., will not permit any famous person to be cured by Hoxsey's method if they can possibly help it. They will prevent any famous person from even learning about this practical system because there is no money in the Hoxsey system as compared to the usual surgical operations.

As a security officer it would seem that it would be your duty to find out for sure whether Hoxsey is the "Quack" or the general Clinicks are the "Quacks".

If you will read Hoxsey's book- "You Don't Have To Die," I am sure no amount of talk will prevent your brother to Stay at the Hoxsey Clinic or the Fremont Christian Clinic until he is cured. If he goes down there he must never come back to any other hospital or Clinic!

I am sure you will do all you can to save your brother's life; we lost a brother to cancer and know what a terrible thing it is. He had been operated on and burned so he might have been beyond help, from Hoxsey or anyone else.

Why don't you famous people expose this Hellish medical racket?

Respectfully,

## FREMONT CHRISTIAN CLINIC

5625 MELROSE AVENUE • LOS ANGELES 38, CALIFORNIA  
Hollywood 5-2149 • HOLLYWOOD 4-7336

Dear Sir, Madam:

This is an announcement, as every day, it seems, our friends and those who share with us an interest in the welfare of humanity, phone, write, or come in, asking — "Can it possibly be true — that the FREMONT CHRISTIAN CLINIC has actually closed its doors?"

Dr. Sherwood did announce his retirement but public demand has been so great that he is right back here vigorous as ever. I am writing this as his Medical Chief of Staff to let you know that the Clinic is very much open.

We have, in fact, expanded the facilities and staff — to treat asthma, arthritis, hearing defects, cataract, prostate and rectal (piles, etc.,) conditions. Also, of course, we use the famous DeWelles Colon Therapy of which Dr. Winrod spoke so often in the "Defender" and on the radio. He realized that so many diseases are brought on by poisons from decay in the colon, flooding the blood and organs, with breakdown naturally following.

You will see the reason for all of this, if we take an imaginary case —

Mrs. X. comes to us with possible cancer. She is 65 years of age, has rectal trouble and arthritis, has weakened, and may have lost weight. Anyone can see that her body and blood must be built up — rehabilitated — if she is to get the most good from her "other treatment" for actual or suspected cancer. We will correct the rectal trouble without surgery, stop the formation of poisons in her system and blood, and build her up. She will then be better in every way. IT'S JUST THAT SIMPLE.

Yes, our Clinic, with its very extensive equipment and excellent staff is unmatched by any other in this part of America.

If you are suffering and are experiencing no improvement, come to us for examination without delay. Who knows what day — tomorrow or next week — may be your "point of no return" to health. Beyond that point — it would be too late.

Remember — we, here at the Clinic, are at your service.

Very sincerely yours,

FREMONT CHRISTIAN CLINIC

CHAS. LYLE HAWK, M.D., M.Sc.

CBH:hm

these cases. Isn't it a terrible thing that the public is so unaware of what is taking place in these veterans' hospitals in our land?

"The public thinks these hospitals are devoted to the care of the veteran who has been injured in battle, and of course their sympathy goes out to them; and they think, probably, what a wonderful thing our government is doing for these boys who fought to save our freedom. How little they know that the medical profession itself is directly responsible for destroying the health, and even the life, of our nation's healthiest young men, by subjecting them to so-called medical measures which are founded on theory only with absolutely no evidence of any kind to support their flimsy theories.

"I have practiced medicine for forty-three years. I built and conducted my own hospital of a hundred and twenty-five beds, and had a courtesy staff of 400 Allopathic doctors. I did the surgery for nearly all of these men, and during all of these years I have seen nearly every doctor in Boston in action. I have observed their limitations, their inefficiencies, and their awful blunders; and I do not believe I exaggerate when I say that orthodox medicine is killing more people yearly than war and diseases combined.

## Keep at Your Work

The Lord has given to every man his work. It is his business to do it, and the devil's business to hinder him if he can. So sure as God has given you a work to do, Satan will try to hinder you. He may present other things more promising. He may allure you by worldly prospects, he may assault you with slander, torment you with false accusations, set you to work defending your character, employ pious persons to lie about you, editors to assail you, and excellent men to slander you. You may have Pilate and Herod, Ananias and Caiaphas all combined against you, and Judas standing by you ready to sell you for thirty pieces of silver; and you may wonder why all those things come upon you. Can you not see that the whole thing is brought about through the craft of the devil? To draw you off from your work and hinder your obedience to God?

Keep about your work. Do not flinch because the lion roars; do not stop to stone the devil's dogs; do not fool away your time chasing the devil's rabbits. Do your work. Let liars lie, let sectarians quarrel, let corporations resolve, let editors publish, let the devil

## ORTHODOX MEDICINE IS PUBLIC ENEMY NO. 1

*By Alonzo J. Shadman, M. D.*

do his worst; but see to it that nothing hinders you from fulfilling the work that God has given you.

He has not sent you to make money. He has not commanded you to get rich. He has never bidden you defend your character. He has not set you at work to contradict falsehood which Satan and his servants may start to peddle. If you do those things, you will do nothing else; you will be at work for yourself and not for the Lord.

Keep about your work. Let your aim be as steady as a star. Let the world brawl and bubble. You may be assaulted, wronged, insulted, slandered, wounded and rejected; you may be abused by foes, forsaken by friends, and despised and rejected of men, but see to it with steadfast determination, with unflinching zeal, that you pursue the great purpose of your life and object of your being, until at last you can say "I have finished the work which Thou gavest me to do."

Message Press, Coalmont, Tennessee

"I had occasion recently, as a guest of County Medical Society, to visit one of the large Veterans' Hospitals, and I have never been so depressed in my life as the result of what I saw there. Case after case was exhibited, all pronounced incurable. None of the cases which they demonstrated had ever seen actual service. They were healthy young men, in A-1 condition when they were inducted. They all received their immunizing shots and were sent to different parts of the country to training camps, where they developed colds, bronchitis, and pneumonia; for which they received the usual heavy doses of sulfa drugs. After that, they were hospitalized and there they will remain until they die. Some of them show strange, unheard-of pathology, and the doctors put all their efforts into making diagnoses that will fit into their preconceived philosophy of disease, and not one of them suspects for a moment that these diseases are artificial ones; conditions which were produced by unnecessary, ridiculous and harmful drugging, for which they themselves were responsible. Natural diseases produce, by-and-large, an orderly process of symptoms, as Nature reacts in her efforts to produce a cure.

"These strong medical measures in vogue in the present wave of chemotherapy, have no curative effect whatever, but they do distort the picture, change the symptoms and even prevent Nature from her proper reaction which would result in cures. Almost any type of pathology may eventually ensue from such methods and usually does, which accounts for the strange and unfamiliar cases that are filling the veterans' hospitals today. Many of these cases which I saw actually cried for the homeopathic remedy the prescription of which would undoubtedly cure

Rochester, Minn.

Hon. Allen Dulles.  
Capitol Building,  
Washington, D.C.

Dear Mr. Dulles:

By the papers I see that your brother had to go back to the hospital. That will be bad if he depends on surgery to get him out of it.

Why you don't investigate the Hoxsey Cancer Clinic in Dallas, Texas when there is a chance that he might survive not so strange.

The doctors here lied to me when my brother had an operation for cancer. One of the Clinic doctors told me Hoxsey was a "Quack". I was inexperienced enough to believe him. Now, in a cancer case I would hesitate to take a doctor's word under oath!

No famous person will be permitted to be cured by Hoxsey if the A.M.A., can prevent it.

I told Gen. Chenault about Hoxsey, but no doubt he listened to doctors and of course he had to die. Your brother will die also if he depends upon surgery and burning. Cancer seems to be a blood disease. Hoxsey cures about 80 per cent of those who go to his Clinic. You can't read his book and doubt him, although he will not guarantee a cure. Many come to his Clinic on stretchers, and some of these are cured.

You and your brother could do the cancer sufferers untold good if you would expose the medical racket! Both of you, being famous, would make it impossible for the racketeers to cover it up.

Here is hoping John Foster Dulles may live; Give him a chance?

Respectfully,
